EdgeWorks

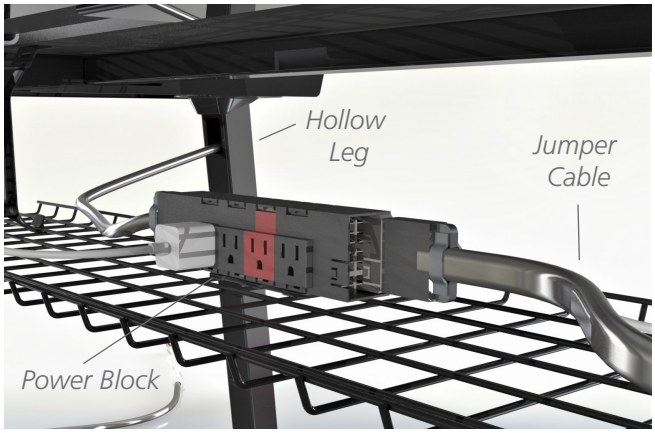
Power

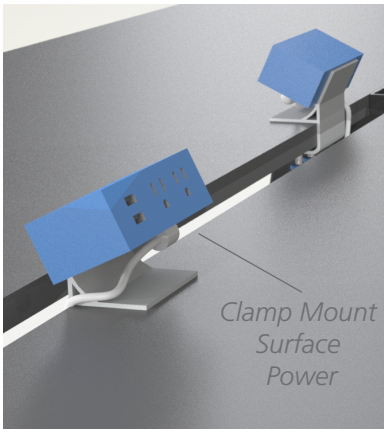
DARRAN
true to craft

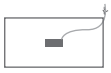
Surface Power allows convenient access to plug in desk top accessories and hardware. The clamp mount surface power features 2 duplex outlets and 2 USB outlets with a plug infeed. The infeed can be powered by the power block below the work-surface or plugged directly into a building power outlet.

A Power Block sits below each inline or facing work surface in a wire basket. Power blocks feature 8 duplex outlets and can be daisy chained up to 16 duplex outlets on (1) 20 amp circuit. Six person facing workstations and three person inline work stations will have 2 daisy chained power blocks with infeed and 1 additional power block with infeed when plugged instead of hard wired. The power blocks systems is an 8 wire/4 circuit systems (when hardwired).

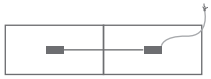
The Infeed connects building power to the power block. EdgeWorks features a hollow leg that allows for the infeed to be concealed from the wire basket to the floor. The infeed can be customer specified as either hardwired or plugged.





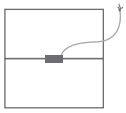


1 Person Inline
(1) Power Block, (1) Infeed

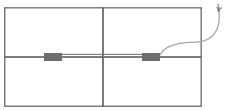


2 Person Inline
(2) Power Blocks, (1) Infeed

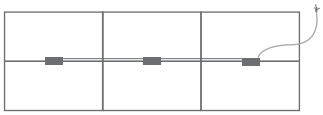
3 Person Inline
(3) Power Blocks, (1) Infeeds*

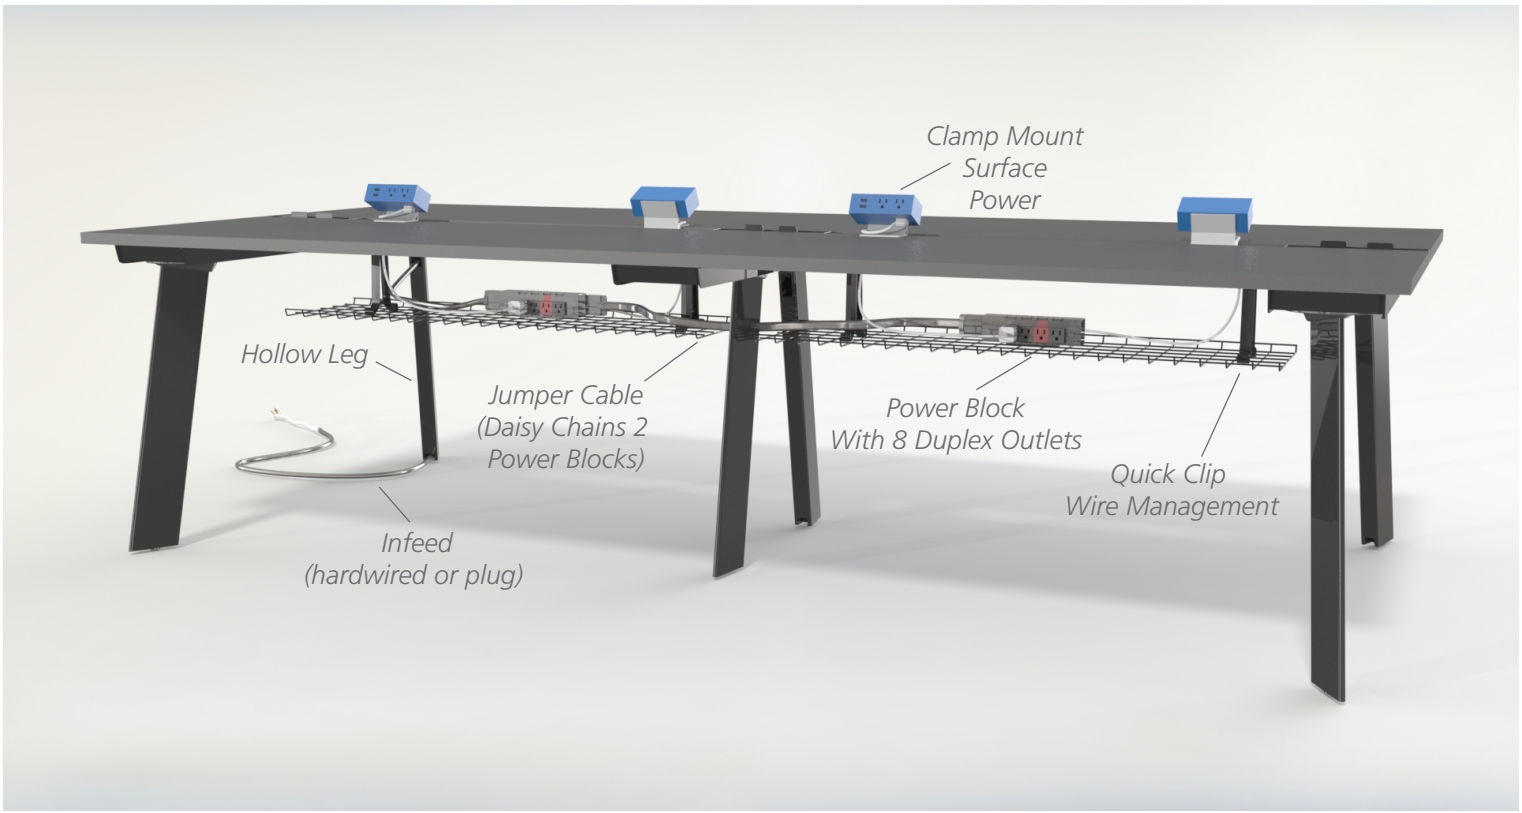


2 Person Facing
(1) Power Block, (1) Infeed



4 Person Facing
(2) Power Blocks, (1) Infeed





6 Person Facing
(3) Power Blocks, (1) Infeeds*
*(2) Infeeds needed if plugged
