Area seating fabric & leather program

Seating & fabric leather program
DARRAN has partnered with some of the most prestigious fabric suppliers of the office furniture industry to bring you quality fabrics that are engaging designs, environmentally friendly and durable for years to come. The majority of fabrics we have graded-in are in heavy supply making it most likely available on our Quickship however, we cannot guarantee stock. If you do not see the fabric you wish to include in a project, please contact our Factory to see if this pattern can be graded in at 800.334.7891.

Application instructions must be specified on the purchase order or COM / COL submission form. In the absence of application instructions, DARRAN will apply materials accordingly.

CAL117
All DARRAN seating products conform to California Technical Bulletin 117 as a minimum standard.

CAL133
To meet the California Technical Bulletin 133 flammability regulation, a combination of proper materials must be used to pass, as it tests the fire resistance of a finished product. Flame resistant fabric, a fire blocker material and special foam must be used to pass CAL133 fire codes.

Testing is available for all seating products with the following fees and considerations:

- If laboratory certification is not required, any style can be manufactured to comply with California Technical Bulletin 133 for $75 list per yard required. (Customer’s Own Materials must factor in additional yardage requirements based on repeat.)
- The purchase order must clearly indicate the requirement of California Technical Bulletin 133.
- If laboratory California Technical Bulletin 133 certification is required, the cost of testing a chair is $820 NET, plus the cost of the chair and covering material.
- An additional lead time of 4 to 6 weeks is required for testing for CAL133.
- Once testing is completed, we will provide a certification letter specific to the sample tested for CAL133.
- DARRAN’s manufacturing procedures for California TB 133 compliance are based on the testing of representative style with specific fabrics. Please contact Customer Service for an updated list of tested models.
- A copy of test certification is available upon request.
Area seating fabric & leather program

Combination fabrics
DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/fabric combination, use the highest grade/price + 5%.
- If using COM orCOL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions
Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL submission form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements
The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

<table>
<thead>
<tr>

ATTACH 6” X 6” FABRIC/LEATHER SAMPLE HERE

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing restrictions.

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN's approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations or colorfastness of the COM. It is the customer's responsibility to ensure the COM meets CAL 117 compliance and are first quality continuous goods.
Area seating specification

Frame: Constructed CNC cut engineered hardwood to maximize the strength, precise measurements and overall longevity.

Seat and backs spring with no sag sinuous wire spring to enhance comfort, sustainability and endurance.

Sleek, modern straight lines designed to coordinate with DARRAN guest seating and other diversified contemporary styles.

Area can also be intermixed with Filmore Collection components.

Depth = 30-1/2”
Height = 31-1/2”
Seat Width = 21-1/2”
Seat Depth = 21-1/2”
Seat Height = 18”
Arm Height = 26”

Optional tablets, casters and pulls are available for collaborative seating spaces.
Horizontal back frame provides easy ganging capabilities for expansion and flexibility in various settings.
High resilient polyurethane foam consisting of minimum 1.8 density in seats and backs, further advances support and durability.
Area is standard with an eye-catching signature aluminum leg. Optional legs include round anodized aluminum or tapered wood finished legs.

Joints are securely fastened with mortise and tenon joinery as well as corner block construction to ensure long-term use.

Ability to incorporate variety of options: wood panels, wood or metal legs, ganging devices, table tops, cup holders, pivoting tablet mounts and combination fabrics.

Complete domestic production from frame through upholstery, controlled by one manufacturing facility. Less stress / damage to chair parts normally caused by overseas transit, providing consistent, reliable quality standards at a quick response to shorter lead times.
Area finishes

Finishes are available on wood legs or table tops only

   - Frame constructed of CNC cut engineered hardwood to maximize
     the strength, precise measurements and overall longevity
   - Horizontal back from provides easy ganging capabilities.
   - Joints are securely fastened with mortise and tenon joinery as well
     as corner block construction.
   - Seats and back sprung with no sag sinuous wire spring to enhance
     comfort, sustainability and endurance.
   - Soy-based, high resilient polyurethane foam consisting of mini-
     mum 1.8 density.

   DARRAN is pleased to offer customers the design freedom of combination
   fabrics. When using fabric, vinyl or leather combinations, pricing/
   yardage requirements will be as follows:

   - A Seat 3 yd(s).
   - B Back 5.5 yd(s).
   - C Arm 1.5 yd(s).

   - When combining two materials of the same grade, pricing will be
     specified grade + 5%
   - If combining two materials of different grades or leather/fabric
     combination, use the highest grade/price + 5%
   - If using COM or COL, pricing will be COM or
     COL + 5%.
   - If both COM + COL are used in combination, use
     COL + 5%.
