DARRAN®

Veneer tops

Veneer tops are 1" thick and comprised of 45-pound density MDF core with a balanced 3-ply construction. Veneer tops, screens, and lounge backs are standard in Quartered Walnut and Rift Cut White Oak Veneers that are slip-matched. Veneer tops are available in Flat or Cliff edge profile, with multiple banding options. Tops are finished in either 5-sheen matte finish or 40-sheen depending on finish selection.

HPL laminate tops

Honey high-pressure laminate tops are 1" thick and comprised of 45-pound density MDF core with a balanced 3-ply construction. Tops are available in Flat or Cliff edge profile, with multiple banding option.

TFL tops

Thermally Fused Laminate tops are 1-1/8" thick and fused to a 45-pound density substrate of the top for a durable surface. Tops are available in a Flat edge profile with multiple banding options.

Panel construction

Panels are composed of 3/4" and 1" birch plywood with tenon and groove construction that is secured with screws and glued. MDF trim pieces create soft rounded edges and beautiful contours. The frame is covered with 4.5mm PET acoustic panels for sound absorption. PET panels are composed of recycled content, are flame retardant, mold resistant and have zero emissions. Panels are standard elevated on 5" solid wood legs that feature 2" Glide for adjustment on uneven surfaces.

Case construction

Case pieces including pedestals, towers and credenzas are constructed of 3/4" thick particle board with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws and glue. Credenzas and Towers are elevated on 6" solid wood legs featuring 1" glide for adjustment on uneven surfaces.

Lounge construction

Lounge units are constructed from plywood with 2" thick bottom platform, 3/4" seat pan and 4" of high resiliency foam for comfort and durability. The honey Lounge back is a curved plywood core with veneer or laminate. Honey lounge consists of high resilient foam with a minimum of 2.5 density in seats and blown fiber cushions, further advances support and durability.

Lounge unit is elevated on 10.5" solid wood leg with oval shape to match panel stations.

Screens

Honey screens are available in Acrylic or Veneer over plywood. Acrylic is 1/4" thick and available in frosted, white, and black. Plywood screens are 1/2" thick and are available in Quartered Walnut and Rift Cut White Oak Veneer that runs horizontally on the screen. Screens secure to the

Honey Features & Advantages

underside of the worksurfaces with an L bracket. Screens feature a center cutout to allow clip-on power pods and easy wire management to the MGT: Wire Tray below the worksurface. The screen is 24" tall for added privacy; the screen's unique curved wings mimic the worksurface top creating a barrier between users and work area to focus.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Suspensions

All cabinets and mobile pedestals utilize cold rolled steel zinc plated high-grade drawer suspensions. All suspensions are warranted for the lifetime of the product. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion with soft close operation and are rated 100lbs.

Filing

Honey features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks

Locks are optional on pedestals and doors. Each drawer pedestal is independently locked. Lock plugs are factory or field installed.

Keying

Keying is available either factory or field installed. Factory installed keying offers two options: random or designated. When the random keying option is selected an arbitrary key number will be assigned to the unit. When the designated keying option is selected a key number must be specified between 101 and 110. Higher numbers may be specified if noted on the purchase order and may be factory or field installed. Black and silver face lock have silver keys.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W21 under surface wire channels for organization and management of all communication wires and cords. Sold separately to conceal wire under worksurfaces. Top feature a cutout in the back and unique curved wings allowing for clip on modules or easy wire management to the power tray below the worksurface.

Grommets

Metal grommets are provided to match the drawer pull selection. Metal grommets are available in black, silver or white. Must specify standard or non-standard location. TM50 Black plastic grommets are available as an option for vertical applications.

Seating & fabric leather program

DARRAN has partnered with some of the most prestigious fabric suppliers of the office furniture industry to bring you quality fabrics that are engaging designs, environmentally friendly and durable for years to come. The majority of fabrics we have graded-in are in heavy supply making it most likely available on our Quickship however, we cannot guarantee stock. If you do not see the fabric you wish to include in a project, please contact Customer Service to see if this pattern can be graded in at 800.334.7891.

Panel fabric program

ALL COM fabric must be preapproved by DARRAN. Leather fabric program is not approved on panels. Due to stretching and sagging textile content for panels shouldnt exceed a combined 50% cotton, linen, nylon and/or rayon is not recommended. Panel fabrics are required to have flame certificates that meet ASTM E84 Adhered (for power panels) and Unadhered (for panels). DARRAN does not accept responsibility of collecting flame certificates for COM.

Application instructions must be specified on the purchase order or COM / COL submission form. In the absence of application instructions, DARRAN will apply materials accordingly.

CAL117

All DARRAN seating products conform to California Technical Bulletin 117 as a minimum standard.

CAL133

To meet the California Technical Bulletin 133 flammability regulation, a combination of proper materials must be used to pass, as it tests the fire resistance of a finished product. Flame resistant fabric, a fire blocker material and special foam must be used to pass CAL133 fire codes.

Testing is available for all seating products with the following fees and considerations:

- If laboratory certification is not required, any style can be manufactured to comply with California Technical Bulletin 133 for \$75 list per yard required. (Customer's Own Materials must factor in additional yardage requirements based on repeat.)
- The purchase order must clearly indicate the requirement of California Technical Bulletin 133
- If laboratory California Technical Bulletin 133 certification is required, the cost of testing a chair is \$820 NET, plus the cost of the chair and covering material.
- An additional lead time of 4 to 6 weeks is required for testing for CAL133.
- Once testing is completed, we will provide a certification letter specific to the sample tested for CAL133.
- DARRAN's manufacturing procedures for California TB 133 compliance are based on the testing of representative style with specific fabrics. Please contact Customer Service for an updated list of tested models.
- A copy of test certification is available upon request.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54" wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2" - 14" Repeat	15" - 19" Repeat	20" - 27" Repeat	28" - 36" Repeat

Worksurface Reconfiguration Cover

Style Number List Price
 HBC: 4 Worksurface Reconfiguration Covers \$109

Honey has the ability to adapt with your office as you modify seating positions. The panels can be reconfigured to allow additional workspaces or to modify workspaces to lounge areas. When workspaces are attached to a panel, mounting is required. The Worksurface Reconfiguration Covers allow those mounting positions to be concealed. These covers simply press fit into the Honey panels.
