Seating & fabric leather program
DARRAN has partnered with some of the most prestigious fabric suppliers of the office furniture industry to bring you quality fabrics that are engaging designs, environmentally friendly and durable for years to come. The majority of fabrics we have graded-in are in heavy supply making it most likely available on our Quickship however, we cannot guarantee stock. If you do not see the fabric you wish to include in a project, please contact our Factory to see if this pattern can be graded in at 800.334.7891.

Application instructions must be specified on the purchase order or COM / COL submission form. In the absence of application instructions, DARRAN will apply materials accordingly.

CAL117
All DARRAN seating products conform to California Technical Bulletin 117 as a minimum standard.

CAL133
To meet the California Technical Bulletin 133 flammability regulation, a combination of proper materials must be used to pass, as it tests the fire resistance of a finished product. Flame resistant fabric, a fire blocker material and special foam must be used to pass CAL133 fire codes.

Testing is available for all seating products with the following fees and considerations:

- If laboratory certification is not required, any style can be manufactured to comply with California Technical Bulletin 133 for $75 list per yard required. (Customer’s Own Materials must factor in additional yardage requirements based on repeat.)
- The purchase order must clearly indicate the requirement of California Technical Bulletin 133.
- If laboratory California Technical Bulletin 133 certification is required, the cost of testing a chair is $820 NET, plus the cost of the chair and covering material.
- An additional lead time of 4 to 6 weeks is required for testing for CAL133.
- Once testing is completed, we will provide a certification letter specific to the sample tested for CAL133.
- DARRAN’s manufacturing procedures for California TB 133 compliance are based on the testing of representative style with specific fabrics. Please contact Customer Service for an updated list of tested models.
- A copy of test certification is available upon request.
Combination fabrics
DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions
Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL submission form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

**NOTE**
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing restrictions.

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117 compliance and are first quality continuous goods.

**RAILROAD**

**SETUP**
Frame Construction: 9-ply hardwood molded plywood frame construction for superior strength and durability. Frames are precision cut on CNC routers to insure uniformity.

Cushioning: High density CAL117 polyurethane foams of varying compression are laminated together to provide long term comfort.

Upholstered Arms: 2" wide upholstered panel arms, urethane coated loop arms, adjustable T arms and armless versions provide options for multiple use applications.

Adjustable Urethane Arms: Black adjustable ergonomic arms are available with spring loaded height adjustment and button activation. Arms are angled at 15 degrees with an adjustable arm pad for additional comfort and ergonomic support. Arms adjusts 3-1/4" in height and 1-1/2" in width.

Bases: 26" diameter, available in Polished Aluminum (Standard), Black or Wood.

Casters: 60mm diameter casters are standard and promote increased mobility.

Carpet casters are standard. For hard floor surfaces specify CST20 - no upcharge.

Overall Width = 25"  
Overall Depth = 24-1/2"  
Height = 38-1/2 - 41-1/4"  
Seat Width = 22-1/2"  
Seat Depth = 18-1/2"  
Seat Height = 18-1/4" - 21-1/2"  
Arm Height = 27-1/2" - 30-3/4"

Upholstered Arms  
Armless  
Adjustable Arms  
Urethane Loop Arms  

Posh’s thin profile of subtle curves and signature channel back design provides an elegant executive seating solution for any office environment. Versatility in options, and highback / midback chair designs allow customers to specify Posh for mid-management, upper executives, and conferencing applications. Posh is offered in armless, upholstered, adjustable, and black urethane arms.

Knee tilt swivel mechanisms

The Knee-tilt mechanism features an advanced forward pivot point that reduces leg tilt with a 16 degree seat angle and a 25 degree back angle tilt. The mechanism locks in task and reclines positions with side tension adjustment. Height adjustment and tilt tensions are also provided.
